

To Install and Download iQuiz Games:

iQuiz will only work on the following iPods:

iPod Video (fifth generation iPod Classic)

iPod Classic (sixth generation iPod classic)

third generation iPod Nano

If you have other models of iPod or a non-Apple "iPod", you cannot install and play iQuiz.

Click on **iQuiz** in the Related Box

Buy the Game (even if you have it on your iPod)

Sync your iPod

Go to www.iquizshare.com

Create an account to download any of the iQuiz games. You will have to wait until they “approve” of your account.

Once you have an account, log in.

Find the iQuiz games that you want to download / install

Here is a direct link to the games (find the Orofacial topics that you want to download)

http://iquizshare.com/download-iquiz/task_cat_view/gid.27/

Click on download for each iQuiz game that you want. This textbox pops up.

You will need to save **each** game to a different folder in your iQuiz folder. Each iQuiz game needs to be saved with the name trivia (all will have this same name- that’s why each needs to go into a different folder).

Click on Save. Change the name of the file to **trivia**

Need you need to find your iQuiz folder. It should be located under the Program folder and under iTunes. Find the iQuiz game folder and make a new folder for each game you download and install. Since there are 4 path games, you will have 4 separate folders (name each folder whatever you want to).

Save the first game to one of the new folders. Just make sure that it is named **trivia**

Do this for each game – download each to a different folder and re-name the file as trivia

Re-sync your iPod
